COLOR SWATCH

First and Foremost

- All pictures are real shoot, copyright belongs to EVERBEAUTY CO, Ltd. please do not lift, thank you.
- The colors presented in this color swatch are a set of customized samples for one of our clients, which is the most popular on the market today, so the majority are mixed color.
- This color swatch is just for your reference. Probably there is a little difference to the real color ring because of display and the capture of pictures. In addition, color would be variable slightly from one monitor to another.
